OBJECTIVE

Aspiring UI/UX designer with passion for Cognitive Neuroscience and Cognitive Psychology. Analytic thinker who looks at things and wonders why they are the way they are. Seeking a UI/UX design internship or a full-time position to enhance knowledge in the field and practice aesthetic functionality.

EDUCATION

University of California, Berkeley
Bachelor of Arts, Cognitive Science

Expected Graduation: May 2016

EXPERIENCE

Event Coordinator/Social Marketer, Berkeley Opinion

Feb 2015 - Present | Berkeley, CA

Organize and coordinate events, gatherings and other social activities. Design marketing materials using Adobe Photoshop and Illustrator to meet organization needs. Orchestrate publication and distribution of daily articles on club website and social media sites. Network with different clubs and implement biweekly collaborative projects.

Research Administrative Assistant, Campus Shared Services

July 2015 - Present | Berkeley, CA

Execute clerical projects assigned by the supervisor and research administrators. Sort and file pre- and post-award documents by principal investigator and fund number. Organize closed-out funds by fiscal year on MS Excel spreadsheets.

PROJECTS

Text Corpus Processor, Java

Mar 2015

Developed a processor that allows interpretation of semantic relations and statistical analysis of word usage. Implemented data structures that efficiently process a large set of data.

Version Control System, Java

Apr 2015

Implemented a mini version of Git, with its core functionalities of version tracking and navigating.
